About Us

Exspan Sinergi Progresia is a professional company specializing in inspection services, certification facilitation, and supply chain management solutions. We are committed to supporting organizations in achieving high standards of quality, compliance, and operational excellence across various industries. Through a structured and results-oriented approach, we help businesses ensure that every process aligns with both national and international standards.

With a strong understanding of modern industrial requirements and global supply chain dynamics, we provide integrated solutions that focus on improving efficiency, ensuring compliance, and enhancing overall performance. Our services are designed to support clients from initial assessment and inspection to certification processes and continuous improvement strategies, ensuring reliable and consistent outcomes.

Supported by a team of experienced professionals, Exspan Sinergi Progresia delivers tailored and practical solutions based on each client's specific needs. We are driven by integrity, accuracy, and professionalism, and we are committed to becoming a trusted partner in helping businesses grow, compete, and succeed in both local and global markets.

Mission

To deliver accurate and reliable inspection and certification services that meet international standards, while providing integrated solutions to enhance operational efficiency, ensure regulatory compliance, and support continuous improvement, by building long-term partnerships grounded in integrity, professionalism, and excellence.

Vision

To become a trusted and leading company in inspection, certification, and supply chain solutions at both national and international levels.

EXSPAN SINERGI PROGRESIA

COMMITTED TO EXCELLENCE IN INSPECTION & CERTIFICATION

OUR TRAINING PROGRAMS

-  **OIL & GAS INDUSTRY TRAINING**
-  **WORKPLACE SAFETY & COMPLIANCE**
-  **TECHNICAL & ENGINEERING SKILLS**
-  **LEADERSHIP & SOFT SKILLS**

Our training programs are designed to equip professionals with essential knowledge and skills in oil & gas, safety, technical, and soft skills areas to improve performance, ensure compliance, and drive continuous development.

The Inspection Department of **Exspan Sinergi Progresia** provides comprehensive inspection, auditing, and integrity assurance services to support the safety, reliability, and operational excellence of oil & gas, drilling, energy, and industrial operations.

Our services include rig equipment inspection (CAT III & CAT IV), rig auditing, non-destructive testing (NDT), lifting equipment inspection, tubular inspection for OCTG, drill pipe & BHA, advanced NDT services, rope access techniques, and dropped object surveys.

Supported by experienced inspectors and industry-standard procedures, we are committed to delivering accurate assessments, regulatory compliance, and high-quality inspection solutions that help clients minimize risk, improve asset integrity, and maintain safe operational performance.

GLOBAL INSPECTION SERVICES

The Inspection Services Division of **Exspan Sinergi Progresia** delivers comprehensive inspection, integrity assurance, and technical support solutions for the Oil & Gas, Petrochemical, Energy, Construction, and Industrial sectors.

With a commitment to safety, operational reliability, and international quality standards, we provide professional inspection services supported by certified personnel, advanced technology, and industry best practices.

1. Non-Destructive Testing (NDT)

Our NDT services are designed to evaluate material integrity, detect defects, and ensure operational safety without causing damage to equipment or components. These services include:

- Magnetic Particle Testing (MT/MPI)
- Ultrasonic Testing & Thickness Measurement (UT)
- Dye Penetrant Testing (PT)
- Radiographic Testing (RT)
- Eddy Current Testing (ET)
- Electromagnetic Inspection (EMI)
- Remote Visual Inspection / Borescope (RVI)
- Phased Array Ultrasonic Testing (PAUT)

2. Tubular Inspection Services

We provide inspection services for Drill Pipe, Bottom Hole Assembly (BHA), Tubing, and Casing in accordance with international standards such as API specifications and recognized inspection procedures.

Our inspections utilize both conventional and advanced NDT methods to ensure the integrity, performance, and reliability of tubular assets used in drilling and production operations.

3. Advanced Inspection Solutions

Exspan Sinergi Progresia offers advanced inspection technologies for critical industrial assets, including:

- Storage Tank Inspection
- Pipeline Integrity Inspection
- Heat Exchanger Tube Inspection
- Corrosion Monitoring & Assessment
- Insulated Equipment Inspection
- Robotic & Online Inspection Solutions

These services are aimed at improving asset reliability, minimizing downtime, and supporting preventive maintenance programs.

4. Advanced Inspection Solutions

EXSPAN Sinergi Progresia offers advanced inspection technologies for critical industrial assets, including:

- Storage Tank Inspection
- Pipeline Integrity Inspection
- Heat Exchanger Tube Inspection
- Corrosion Monitoring & Assessment
- Insulated Equipment Inspection
- Robotic & Online Inspection Solutions

These services are aimed at improving asset reliability, minimizing downtime, and supporting preventive maintenance programs.

5. Rope Access Services

We provide safe and efficient Rope Access solutions performed by certified personnel for inspection, maintenance, and high-access industrial activities both onshore and offshore.

Rope access methods offer flexible, time-efficient, and cost-effective alternatives compared to conventional access systems such as scaffolding and heavy lifting equipment.

6. Dropped Object Survey

Our Dropped Object Prevention & Survey services are conducted to identify potential hazards and improve workplace safety across operational facilities, Survey areas may include:

- Derrick & Mast Structures
- Rig Equipment
- Cranes & Gantry Systems
- Flare Structures
- Helideck Areas
- Elevated Platforms & Structural Components

By implementing recognized industry practices and systematic assessments, we help clients reduce operational risks and maintain safer working environments.

Through innovation, technical expertise, and a strong commitment to safety and quality, **Exspan Sinergi Progresia** continuously strives to deliver reliable inspection and integrity solutions that support operational excellence across various industries.

We are dedicated to becoming a trusted partner by providing professional services, internationally recognized standards, and sustainable solutions that enhance asset reliability, operational safety, and long-term performance for our clients.
